## ACCESSING SAFETY KNOWLEDGE (ASK) EDUCATIONAL PROGRAM

---

### *Best Practices of a Safety and Health Program*

---

**March 9, 2010 / 9:00 -11:00 a.m.**

A panel of industry representatives will discuss best practices regarding safety and health programs. Panelists will include representatives from owner, general contracting, insurance, large subcontracting and small contracting firms.

This is a stand-alone session as well as the third and final session of the three-session series "Developing and Implementing a Safety and Health Program for Small Construction Companies," an educational series that will assist the small construction company through the development and implementation of a safety and health program.

---
